## Professional Experience

**Premier Inc., Pittsburgh, PA**  
2020

2006 -

Lead production of high-quality eLearning/Video and interactive media products to enhance online continuing medical education and company programs. Worked with stakeholders to assess project scope and requirements and provide instruction in effective presentation strategies. Designed and created multimedia products for promotional and marketing purposes.

### *Multimedia / Marketing Specialist (2016 - 2020)*

- Core member of a team that produced an educational video series for a local university that was under a tight timeframe. The production consisted of recording high profile expert interviews, b-roll of campus life, video editing and graphics. Led to increased awareness of Meningitis-B throughout campus.
- Requested to produce multiple enterprise-wide browser-based eLearning modules for Operations Advisor training, deployed within multiple business units. The programs utilized instructional design and video/audio/graphical content. The learning effectiveness was tracked by an LMS system.

### *Senior Multimedia Technologist (2011 - 2016)*

- Partnered with business product managers to conceptualize and design a series of animated videos that tackled a difficult task of demonstrating to customers, complex government healthcare measure reporting.
- Coordinated a diverse, cost-effective, and reliable network of third-party contractors utilized for professional, voice-over, music, and graphics for eLearning, marketing and video projects.
- Promoted to manage the company's public facing server used for centralizing eLearning and internal communications content for company-wide consumption.

### *Video Studio Manager (2006 - 2011)*

- Promoted to handle production of webcasts for specific high-level clients and product managers. Offered direction to presenters, content providers and closed captioning personnel to deliver the best results achievable for a successful live webcast.
- Managed and maintained video studio for productions of medical education videos and webcasts, responsible for organizing video interviews and panel discussions, scheduling, purchasing, directing talent, and editing. Improved the workflow of production to the final product.
